Knitting

Capacity/month: 521 Tons

The knitting facility of Turag is equipped with world's latest and dependable brand machinery like LISKY, JIUNNLONG, SMART, SUNDA & YEARCHINA. Intensive online inspections at different stages during and after knitting process are carried out invariably to achieve the desired knitting quality.

It produces numerous varieties of fabrics including Single Jersey, Double jersey, S/J Cotton Elastane, Rib, 1X1 Rib Cotton Elastane, Interlock, all kinds of Drop Rib, all kinds of piqué, 3 thread fleece, Engineering Stripe, Pointal Rib, Plating fabric, Waffle, Crepe, Thermal, Jerseywill and many more.

Dyeing & Finishing

Capacity/month: 542 Tons

Turag has state-of-the-art machinery for fabric dyeing and finishing. For its intensive experience and expertise , its dyeing process results in a clone-like uniformity in fabric dyeing.

It uses Sclavos's brand machines from Greece for high temperature and atmospheric dyeing. In finishing section, it uses the world's latest technology **Santex** machine from Switzerland and **monforts** from Germany . It has both the facilities like open width and tubular finishing.

Here, shade of every finished fabric lot is verified with Data Color Brand Color Matching System.

Apparel Sewing

Having both quantitative and qualitative facilities to ensure tailoring excellence, the sewing floors of Turag is capable of producing **60,000 pieces fashionable items or 80,000 pieces basic items** of garments per day. Monthly capacity is 1.83 million pcs.

It has **1650 sets** brand machines of Pegasus, Brother and Juki with automatic thread cutting, trimming, and sucking devices. It has some other special types of sewing machinery like PICOT, ZIGZAG, FEED-OFF-THE-ARM and ELASTIC INSERTING. To generate perfection, its sewing floors are under constant and continuous surveillance and quality monitoring system.

Garment Printing

Well equipped with necessary machinery needed for design screen developments;

It has the ability to print in pigment, silicon puff, Flock, Glitter, Metal Stone and Rubber techniques.

It can print 48,000 pieces of apparel per day, per design , in up to 12 colors together.

Auto printing machine procurement under processing.

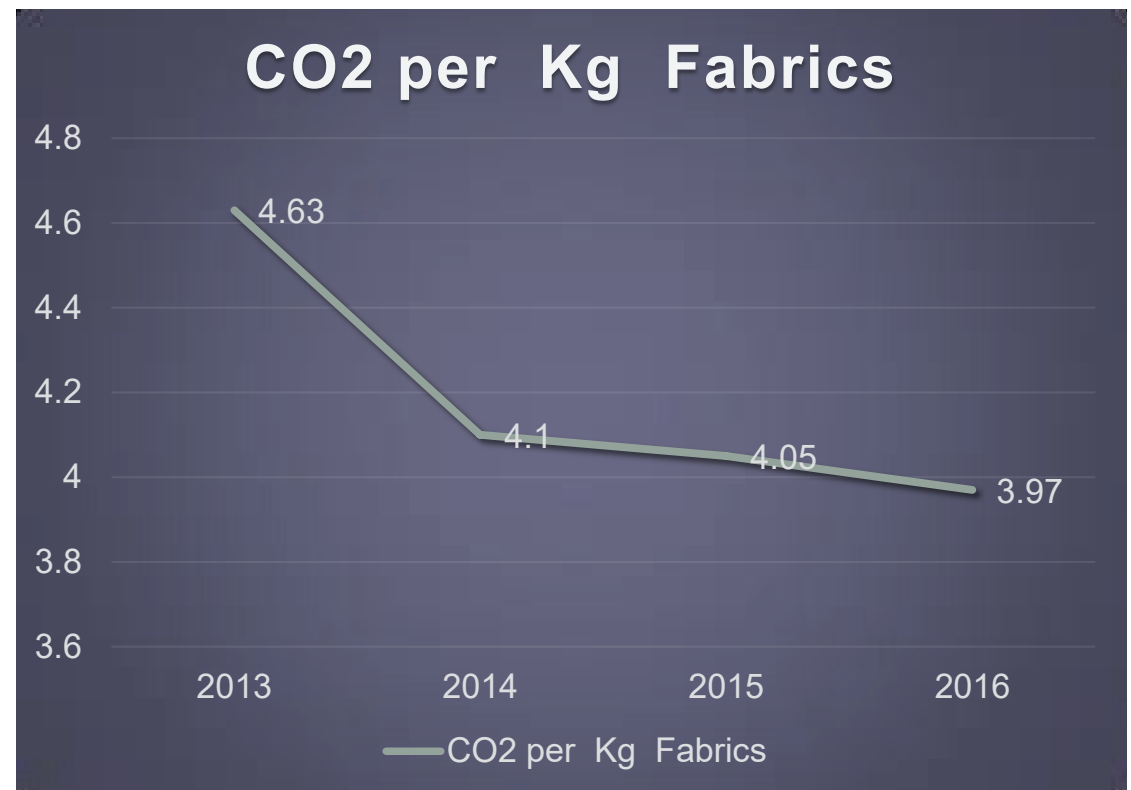

AZO, PVC, Phthalate and APEO Free Printing environment.

All Over Print is at expansion, Pigment/ Reactive/ Discharge and Sublimation prints are on progress.

Carbon Footprint

Environmental Sustainability

☒ **Water Saving**

Rain Water Harvesting

☒ **Preventing Heat loss and Steam Loss**

Condensate recovery and G-Trape

☒ **Electricity Saving**

LED Light, Servo Motor

☒ **Day Light Saving**

Roof Top Sunlight

☒ **Reduce Reuse Recycle (Zero Discharge Plan)**

Biological ETP (Proposed)

☒ **Boiler Efficiency**

Auto Blow Down and EGB (Proposed)
